

Product Information

ENVIROWASH

Vehicle wash and degreaser – Heavy duty and non-phosphate formulation

Description

ENVIROWASH is specifically formulated to remove dirt, soils, light oil/grease and road grime from Heavy and Light vehicles on mine sites. As such it is also a highly effective cleaner for Off Shore Drilling Rigs and all types of On and Off road vehicles including trucks, railway rollingstock and cars.

ENVIROWASH is quick breaking and does not contain phosphate, caustic or harsh alkali and is extremely safe for the operator, the equipment and the environment.

At Chemform we care about the environment, our community and your safety by providing environmentally responsible products. The CHEMFORM GREEN range of products provides performance, quality and safety, as well as environmental sustainability by meeting our strict criteria:

- 1. Products containing detergents must use only those classified as readily biodegradable.**
- 2. Whenever possible, products made from plant based renewable resources are selected.**
- 3. Our CHEMFORM GREEN range contains no phosphates, oil-based hydrocarbons, chlorine, chlorinated hydrocarbons, carcinogens, alkyl phenol ethoxylates or heavy metals.**
- 4. Our CHEMFORM GREEN range is safe to use. Products must be classified as non-hazardous and non-dangerous.**
- 5. Industrial degreasers will be quick-breaking according to our stringent definition.**
- 6. Waste will be minimised as we believe that the biggest environmental burden on the Earth is waste. All packaging used in the CHEMFORM GREEN range is recyclable, and can be returned to Chemform for processing.**

Features and Benefits

- Safe to use – Operators concentrated formulation. Neutral general purpose detergent, non-hazardous, high foaming and
- Safe to use - Environment formulation. Readily biodegradable, non-phosphate and quick breaking
- Safe to use – Equipment Non-corrosive and very "free rinsing" formulation
- Effective in both soft and hard water areas Rapidly and effectively removes dirt, light oil/grease and road grime while rinsing to a streak free finish.

Use Directions

ENVIROWASH can be applied manually via swab but is usually applied via an "EnviroQuip HVHC" system incorporating High Volume/High Concentration (HVHC) foaming assemblies.

It can also be used as received via an "EnviroQuip Spray" low flow/pressure spray application system or incorporated into a high pressure water spray system.

- Swab, foam or spray the ENVIROWASH solution onto the vehicle and allow the solution to dwell for 3-5 minutes.
- Rinse off with water via hose or high pressure washer (preferably hot) ensuring that all suds are removed.

Dilutions

- Swab Dilute with water to 50-100mL per litre of water.
- Foam Apply via the EnviroQuip HVHC system which auto-dilutes the ENVIROWASH to 20-25% with water.
- Spray Use as received direct from the container.
- High Pressure Use at 10-20mL per litre of water.

Environmental Statement

ENVIROWASH is extremely safe for the environment and for further information please refer to the CHEMFORM GREEN section of our website at www.chemform.com.au/green

Handling Precautions
